James J Hakim, MD, FACP
Carol McKissock, APN

Summer 2011

As many of you know, we converted to an "electronic medical record" early 2010. Our newest addition is a "secure patient portal." This will allow you to securely communicate with our office, request refills, review labs and other test results, and update your demographic information. Registering is quick and easy. Please ask any of us to sign you up at your next visit.

Review

 Lab / Diagnostic Reports

Here you can see results of many laboratory and other tests.

Appointments

-  New Appointment
-  Current Appointment
-  Historical Appointments

This window lets you request new appointments, see any upcoming appointments, and previous appointments.

Requests

 Refill Requests

Here you can easily request refills for medications .

-  PHR-Complete Report
-  PHR-View
-  Visit Summary

This gives summaries, lists of medications, and diagnoses for your records or give to other doctors.

Talk to Us

Questions/Concerns

 Ask Doctor

Messages

-  Inbox
-  Sent Messages
-  Deleted Messages

With these buttons, you can ask a question for the doctor (never use this for an emergency!!). When we respond to you, you will receive a message in your regular email (e.g. gmail, aol, etc.) telling you that you have a message from our office waiting for you. You have here a record of all your correspondence with us.

Account Information

-  Personal Information
-  Additional Information
-  Reset Password

Updates

Here you can update us if you have a new cell phone number, address etc.

You can also change your password periodically as well to keep your information more secure.
