

Welcome Back!! We missed you!! See you after May 26!!

What will be happening:

- The office will open to see patients for in office visits as of Tuesday, May 26.
 - We expect to continue doing tele health visits (by video and phone) for at least the next short while. .
-

All of our smiling faces!

What will be different:

- We will not be using the waiting room
- We will be doing: :
 - virtual check-in, you will receive a call from the receptionist
 - virtual "pre-visit planning", you will receive a call from our clinical staff to review the details of the visit.
 - virtual check out, you will receive a call from the receptionist to schedule your next visit, etc.
 - Everyone wears a mask!

See our website and video for more details (links below).

What will be the same:

- high quality comprehensive care in a compassionate environment.
-

Video summary of changes we are making to keep all of you and all of us healthy

Please click on the very short survey below to answer a few questions so that we can better care for you:

How to stay safe:

- Assume that every person you see, and every surface you touch (e.g. door handles) are infected with the virus.
- Wash your hands as soon as you return home from any errand.
- Wear a mask when you expect to be within 6 feet of others. This is more to protect others who are nearby. A mask is not needed if you are by yourself, or you are well distanced from others.

Covid 19 Resources

[New Jersey information](#)

[Center for disease control](#)

[Red Cross](#), to donate plasma if you've recovered from Covid infection
